# BLUE MATTERS SUPPORTS THE SUSTAINABLE DEVELOPMENT GOALS

The United Nations Sustainable Development Goals provide a global blueprint for governments, businesses, and individuals to create a better and more sustainable future for all. In line with this, Berge Bulk has thoughtfully organised our Blue Matters environmental sustainability strategy such that each of our priority areas (emissions, waste, biodiversity, supply chain, and ship recycling) directly aligns with at least two of the UN goals.

THE MARSHALL FOUNDATION

In addition to the work that we do to support the Sustainable Development Goals through our shipping operations, The Marshall Foundation (established in 2010, as a sister organisation to Berge Bulk) also actively funds social purpose organisations that are working to address global concerns and create a better future. To date, The Marshall Foundation has provided over USD \$10 million in funding to 67 charitable projects in 24 countries, across each of the 17 Sustainable Development Goals.
